

2023 Example of Correctly Completed Proposal

38th NATIONAL CONFERENCE ON INTERSTATE MILK SHIPMENTS

Proposal #:

Committee:

	No Action	Passed as Submitted	Passed as Amended
COUNCIL ACTION			
FINAL ACTION			

A. Summary of Proposal

To align the requirement for verifying the accuracy of farm bulk milk tanks to six (6) months in Item 18r with Appendix B item 3.c. in the 2019 PMO.

B. Reason for the Submission and Public Health Significance and/or Rationale Supporting the Submission

2019 PMO, Section 7, Item 18r Administrative Procedure 3.b. (page 60) specifies that a farm bulk milk tank's, "temperature recording device shall be verified every six (6) months and documented in a manner acceptable to the Regulatory Agency..." Appendix B, Section I, Evaluation of Bulk Milk Hauler/Sampler Procedures, Item 3.c. (page 140) currently specifies, "Accuracy of required recording thermometers shall be checked monthly against a standardized thermometer and recorded." This proposal aligns the verification of farm bulk milk tank recording thermometers in Appendix B with the six (6) month minimum frequency established in Section 7, Item 18r.

C. Proposed Solution

Changes to be made on page(s): 139 of the (X – one of the following)
X
2019 PMO 2019 EML
2019 MMSR 2400 Forms
2019 Procedures 2019 Constitution and Bylaws

For changes to the PMO, indicate the applicable Sections and/or Appendices below:

Section(s) (1-18) _____ Appendix (A-T) B

Modify the 2019 PMO, page 139, Appendix B, Section I, Evaluation of Bulk Milk Hauler/Sampler Procedures, Item 3. Milk Quality Checks, Item c.

c. Record milk temperature, collection time (optionally, in military time (24 hour clock)), date of pick-up and bulk milk hauler/sampler's name and license or permit number on the farm weight ticket; monthly the hauler/sampler shall check the accuracy of the thermometer on each bulk tank and record results when used as a test thermometer. Accuracy of required recording thermometers shall be checked ~~monthly~~ at least every six (6) months against a standardized thermometer and recorded. Pocket thermometer shall be sanitized before use.
